Energy Saving

Track the real-time power usage.

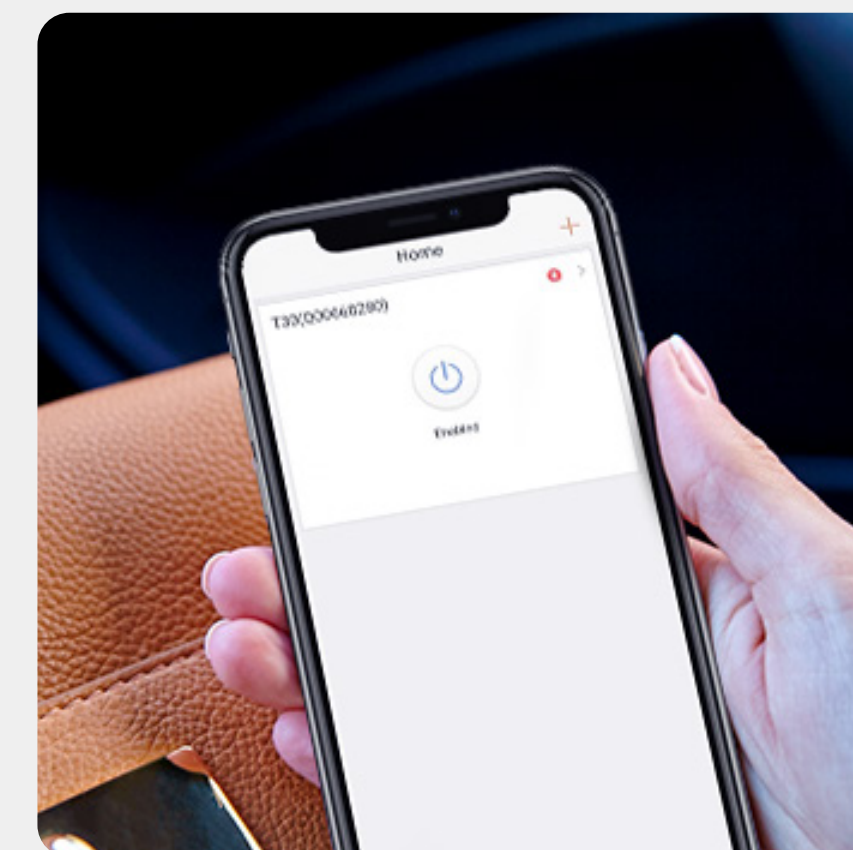

We thought you might want to know how much your appliance is costing you to run. The T30 Smart Plug* presents detailed reports of the power consumption of connected devices so that you can keep your electricity bills low.

*Only the CS-T30-10B model supports.

Set schedules or timer.

Make life easy by scheduling devices to go on and off at specific times. You will never again have to worry whether you've left the iron on when you go out -- you can check it remotely and turn it off if you need to.

Works with voice assistants.

Hands-full? No problem. Ask Google Home or Amazon Echo to turn on or off a connected device for you.

Turn on/off the indicator as needed.

Do any of your devices have exceedingly bright LED lights keeping you up at night? The T30 smart plug won't bring such a problem. Use the EZVIZ App to turn off the indicator light and enjoy a good night's rest.
